DIVINARE

The interior lighting brand Divinare was created in 2005 in the Italian region of Veneto, the birthplace of Murano glass. The company's history began with classic hand-made chandeliers from Murano. Gradually, the brand grew and changed.

Divinare became known for its lighting in the style of modern classics made of crystal and textured glass. At the same time our company is actively mastering new methods and technologies that give artists and designers complete freedom of expression.

We present our new lookbook and hope that it will inspire you to create unique interiors.

WHAT'S NEW?

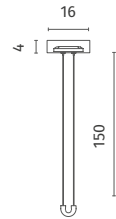

PREDICTING THE FUTURE

Our story began with classic chandeliers with an abundance of crystal and Murano glass with traditional shapes and designs.

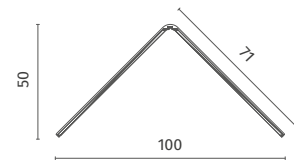

Divinare in Italian means to predict the future, and this has become our brand DNA. Following new trends and tendencies, we have brought in not only a new assortment, but also updated the brand style. The use of new materials, experiments with shapes and colors - all this allowed us to create a completely new page in the history of the Divinare brand. ►

**FORMICA** NEW

A modular system of geometric light elements that can be combined to form various compositions. Each element is easily attached to the previous one, becoming part of a luminous chain.

Magnetic fastening securely holds the elements. Each combination can be changed at any time by swapping the light elements.

The collection includes two ceiling bowls with a power supply of 60W and 100W. The total power of the selected light elements should not exceed the power of the ceiling bowl.

24V

SAFE VOLTAGE

DECORATO

A track system on belts that takes the concept of modular pendant lighting to a new level. The basis of the system is a conductive textile belt, allowing free placement of lamps and the creation of various lighting solutions. The system with a voltage of 24V is absolutely safe in case of accidental physical contact.

IMAGINE.

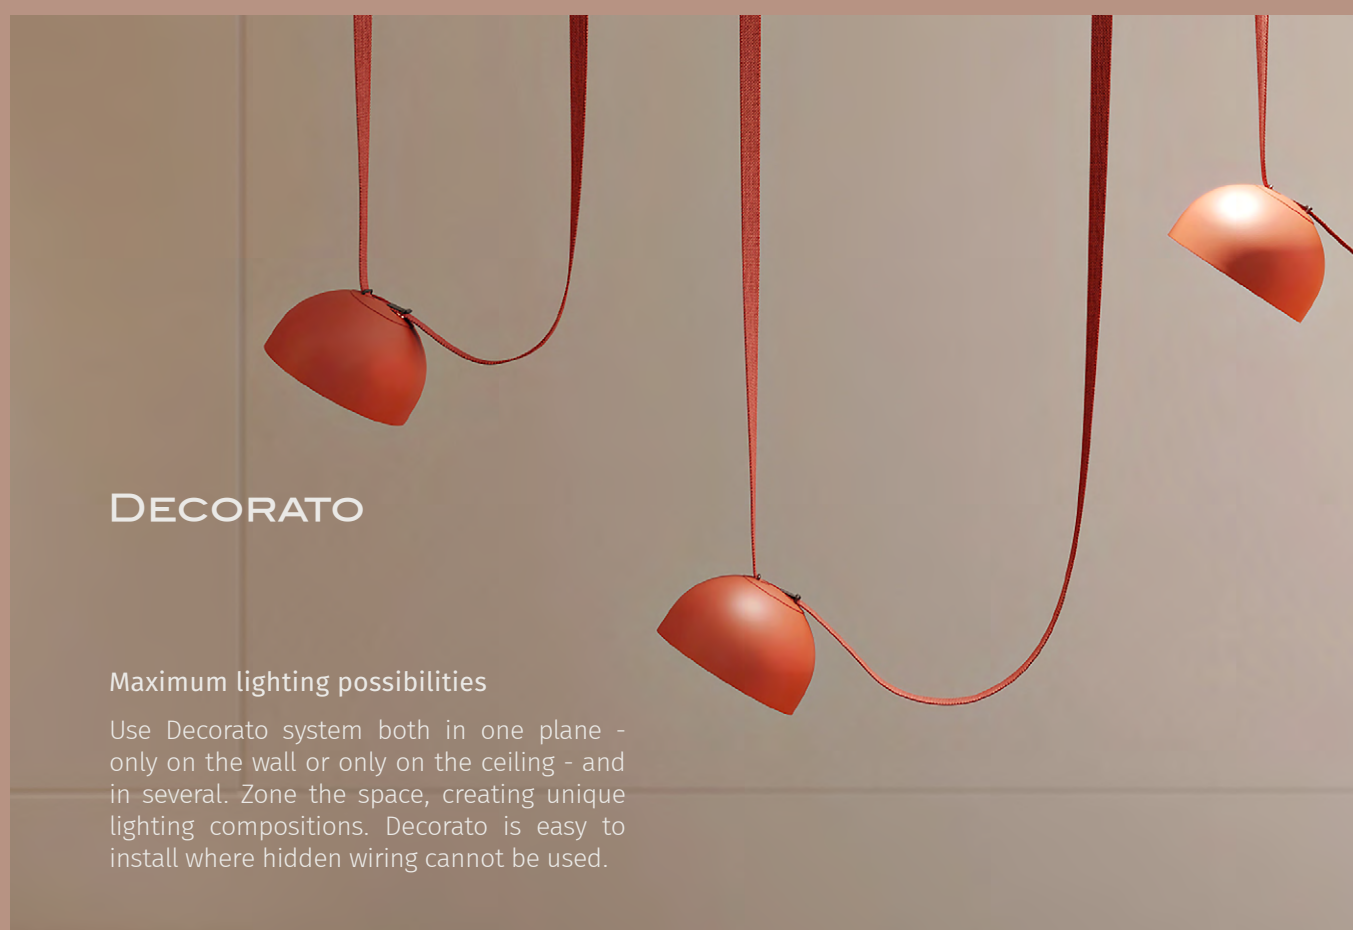

CREATE.

ENJOY!

The conductive wires inside ensure easy connection of the lamps.
The collection includes various components for fastening the belt.

**FIND YOURSELF
IN A NEW LIGHT**

CLICK SYSTEM

Just snap the light on the belt and it will start working. At any time it is easy to fix or remove the light, change its position on the belt.

The textile belt allows installation with different degrees of tension: from tight to loose. Any belt cutting multiplicity.

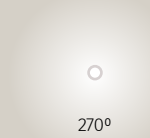

24V
SAFE VOLTAGE

LIGHT EFFECTS

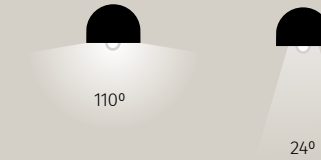

◀ Spheres

Diffused light

Track light sphere made of matte seamless glass. Soft diffused light, high eye comfort. Built-in SMD Osram LEDs. Two diameter options: 20 and 30 cm.

Turning spots ▶

Rotating spotlights with a matte acrylic diffuser provide a wide scattering angle, while spotlights with a reflector are suitable for accent lighting with a narrow angle. The rotating mechanism is covered with a special plug to prevent dust from getting in. Rotation in two directions by 355° and 70°.

110° wide beam angle lighting

24° narrow beam angle lighting

Hemispheres ▶

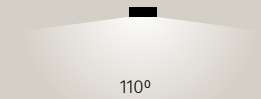

Wide beam lighting

Track light hemisphere with matte acrylic diffuser. Diffuser with protection against crushing, protected by built-in frame inside. High edge of lampshade. Built-in SMD Osram LEDs. Two diameter options: 20 and 30 cm.

◀ Lines

Wide beam lighting

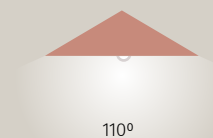

Track light line with a matte acrylic diffuser. Suitable for creating general lighting. Built-in SMD LEDs. Three length options 64, 96 and 128 cm. Lights 128 cm long are ideal for lighting large spaces.

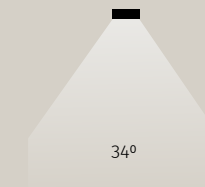

◀ Cones

Wide beam lighting

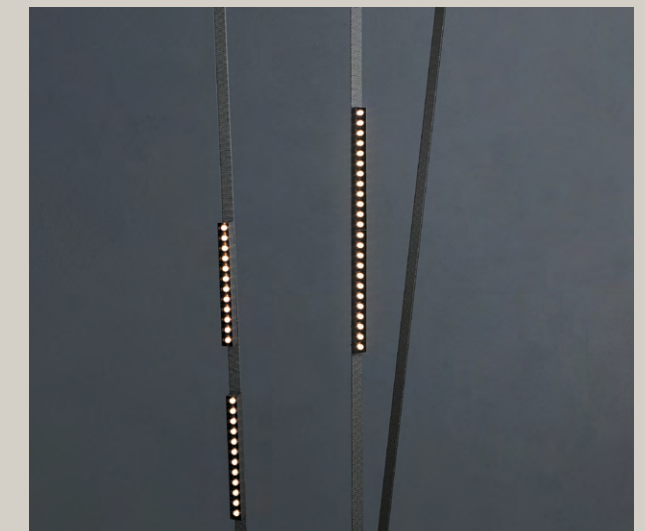

Track light cone diameter 60cm with frosted acrylic diffuser. Built-in SMD LEDs. Ideal for lighting above the table in the living room, kitchen or dining area.

Darklines ▶

Narrow beam lighting

Track light darkline. High visual comfort, recessed light source is invisible from the side, and the light spot is located exactly under the light, anti-glare effect. Two length options 64 and 96 cm.

UNLIMITED POSSIBILITIES

- One or more mounting planes
- Space zoning
- Change of lighting accents at any time
- For accent and general lighting
- Possibility to install the system in interiors with already completed renovations

Decorato modular system is a unique tool that covers absolutely all lighting needs for residential and public spaces. Place lamps throughout the space using just one connection point.

NATURAL CONCEPT

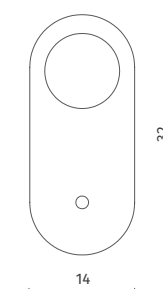

INSPIRED BY NATURE

The best materials for design are those created by nature itself. Natural stone, wood and marble allow you to create a unique and authentic design. Tactilely pleasant materials involve not only sight, but also touch. Each lamp is unique, with its own character and soul. ▶

CUSTOM DESIGN

A NEW READING

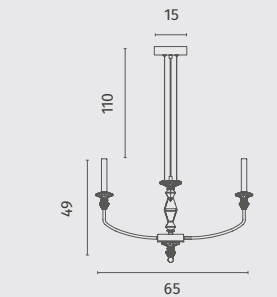

Three collections created by our own design bureau identify all current styles:

Capello – the embodiment of refined classics and mastery of working with ceramics

Floriana – bold design and bright form, reflecting modern style

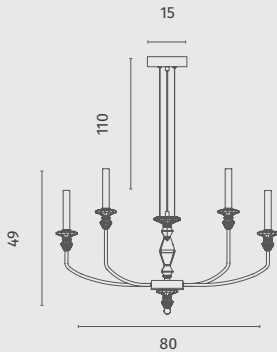

Sterzo – always relevant art deco in a modern interpretation ▶

THE COLOR. THE SHAPE. THE TEXTURE.

For many years now, there has been a trend for natural textures and materials in modern interior design. Stone, marble, wood - all this perfectly complements and unites different elements in the interior. But at the same time, warm natural colors are often diluted with bold and interesting designs. We are no longer afraid to use bright colors and bold shapes. Such details attract attention and become the central element in the interior. ►
